

## Health Task Force

TCA's Health Task Force worked to create a thorough school policy to address COVID-19 and **establish procedures and protocol that will protect our students and staff**. The Health Task Force is comprised of community stakeholders & faculty members, as well as the local EMA Director, a LeBonheur physician and 2 registered nurses. Collectively, they have **more than 75 years of medical experience** and all are currently working in the midst of this pandemic, staying abreast of the most recent medical recommendations and ensuring we follow the guidelines set out by the Center for Disease Control.

## TCA Advantages

TCA's **student body & class size** allow the freedom & flexibility to work within social distancing guidelines while still facilitating in-school learning. **Independent transportation** to & from school gives the ability to limit contact with other students.

## Our Mission

Tipton Christian Academy strives to provide students with a Christ-centered, Bible-based education that promotes academic excellence which builds character & empowers service-oriented leaders who impact God's kingdom. In all things, **we seek to uphold our first & primary goal: creating & educating disciples for Christ.**

**Welcome back  
EAGLES!**

**"We are committed to  
giving a great  
educational experience  
to every student while  
keeping them  
safe & healthy. "**

## Proactive Prevention

- Temperature checks for everyone entering the school building each day (teachers, staff, students). Student temps will be taken before they exit their vehicle.
- Visitors must schedule appointments prior to coming to the school & should call ahead before entering the building.
- Students who get sick at school will stay in a designated "sick room" until they are picked up. Upon exit, that room will be sanitized.
- **Masks are required when students are traveling.** Masks will be required in Chapel.
- **Lunches will be eaten in the classroom for the month of August.** Lunchboxes only M-TH, pizza option Friday. Microwaves will not be available to students.
- Touchless sanitation stations will be located throughout the school & students will be encouraged to use them frequently.
- High touch areas will be sanitized twice daily during the school day.
- The school day will be extended 15 minutes to add 6 additional stockpile days to the school calendar, making a total of 20. (The extended school day applies to Jr.K, Stay & Play, K-12. PreK will still have a 12pm dismissal time.)
