

Kindergarten Summer Learning Mats

Dear Parents/Guardians,

These quick and engaging summer learning mats are designed to keep your child learning over the summer. The tasks can be completed independently or with your guidance. Your child will choose one math task and one ELA task for the week.

Throughout the week your child will also work to complete the 3-in-a-row board or go for a complete "blackout". There is an incentive piece to this mat as well. Students can earn two seeds for their watermelon each week by completing their math task and their ELA task. Students will return their watermelons to school in August to be displayed in the hall and earn a watermelon party. Thank you so much for your help making your child's education a priority this summer!
